IMPORT PROMOTION

Switzerland Global Enterprise (S-GE) works on behalf of the Swiss State Secretariat for Economic Affairs SECO to connect importers in Switzerland and the European Union with reliable suppliers in selected partner countries.

OFFICIAL PROGRAMME

We connect

The Swiss Import Promotion Programme SIPPO gives to importers access to numerous markets and new market opportunities in Africa, Asia, Europe and South America. We offer vast industry expertise and an extensive partner network.

We build trust

We carefully select the suppliers we work with. It is only after a thorough application process that they are admitted to the program. They fulfill Swiss and EU standards, and their products are of high quality. Through our matchmaking services at trade fairs, during buyer missions or on study tours, you can get in direct touch with these potential business partners.

The Technical Wood Programme

If you are looking for new suppliers of high-quality products at a reasonable price, our SIPPO Pavilion at ZOW 2016 is the place to visit! This year, we present innovative water-resistant plywood boards, traditional oak panels, fine veneer, solid beech boards, seats carved in form-pressed veneer and furniture elements. Come and check new sourcing opportunities for your furniture company!

SANI GLOBAL D.O.O.

Who we are

The Sani-Global Company has more than 17 years of experience in wood processing. Today, the Sani-Global Group comprises the Plywood Production Company and the Solid Wood Board Production Company. The Sani-Global Group is explicitly export-oriented towards European markets.

What we do

We develop and manufacture high-quality special plywood boards (for the shipbuilding, construction, automotive and furniture industries), beech plywood boards and solid beech boards with the highest quality finishing. In-house research and advanced technologies result in our capability to compete in a demanding European market. We are able to produce and seamlessly customize boards to the preferences and requirements of our clients. We are an ecologically conscious company.

What is our credo

We will service the needs of the special plywood boards market and conquer it through innovation and quality. Our vision is to become the most important producer of specialty plywood boards in Europe.

Who we are

SCS.plus was founded in 2002. Our annual production exceeds one million pieces of seats and backs for school chairs, shells and plates of form-pressed veneer. New technologies and the constant desire to achieve the highest possible quality level have led SCS.Plus to work with some of the most demanding European furniture companies. Almost the entire production is exported to various countries of the European Union.

What we do

We produce seat backs, seat shells and seat plates as well as furniture elements.

What is our credo

Serve the client with high-quality products and expand in order to reach new markets of the European Union.

TEHNOOPREMA D.O.O.

Who we are

Tehnooprema d.o.o. was founded in 1991 with its headquarters in Kraljevo. It is a family company with a team of professionals for each activity. In 2005, we expanded our activities and set up wood processing facilities very near to the beech and conifer forests of the Serbian mountains.

What we do

We perform the cutting, steaming and drying of wood in our production plant.

Our products:

- solid wood panels (finger jointed panels and edge glued panels)
- elements for furniture and furniture made of solid wood panels, following own design and according to client request (tables, benches, beds, cupboards, wardrobes, etc.)
- solid wood flooring
- solid wood wall covering

Our company also provides for the transport of goods with its own vehicles for international delivery.

What is our credo

We will continue improving our production process according to the needs of the market in full respect of nature.

TOPWOOD D.O.O.

Who we are

Topwood d.o.o. was established many years ago as a green field investment. Today we are a modern wood processing company with a full production cycle, from our own sawmill for lumber production, through the KD process, to high-quality final products. The company's production facilities are located in the most wooded area of South Serbia. We export our products to the EU and the USA.

AGRODEREW LTD.

Who we are

Agroderew Ltd. was founded in 1995. The enterprise is comfortably situated in the city of Rawa Ruska, Lviv region – close to European sales markets and to quality Ukrainian raw materials. The main factors enabling our company to carry out successful export activities for many years are the advanced woodworking equipment, availability of a wide variety of raw materials to guarantee fast turnaround, competitive prices, strict adherence to quality requirements and respect for woodworking traditions. Our clients are companies from Germany, Spain, Sweden, the UK and Poland. Agroderew Ltd. is a company in constant evolution: In 2013 the production plant was rebuilt, the machinery was modernized, a new sawmill was installed and a new warehouse area of 2200 m² was added. We keep investing in the development of our company to be ready to respond to market challenges and provide superior quality of products for our clients.

What we do

We produce solid wood panels (finger jointed and edge glued), flooring and wooden briquettes. In 2017, we will start producing furniture.

What is our credo

The best combination of woodworking traditions and advanced technologies.

We are certified ISO 9001:2009. This means that our manufacturing complies with international requirements. EUROSHPON-SMYGA pays great attention to the social welfare of its employees and to the development of social programmes in the company and in the whole region.

What we do

We produce sliced veneer, edge-banding tape and profile wrapping veneer of the highest quality.

What is our credo

We do our best to exceed our partners' expectations and our customers' requirements.

UKRAINE

GELIKA

Who we are

Our furniture factory was established in 1996. Every year we increase our production capacity and expand our range of products. We have also built up a strong dealer system all over Ukraine and in neighbouring countries. We are a solid team of engineers, designers, technologists, managers and workers. We have won several competitions: best employer of the year and best domestic product of the year.
